NAVIGATORS

Discovering positive pathways to productive, fulfilling lives.

COMPASS, an interactive character development & life skills training curriculum, teaches many skills to prepare young adults to lead positive, successful lives.

Young people are supported to develop skills such as:

- **Decision Making**
- **Problem Solving**
- **Goal Setting**
- **Communication**
- **Conflict Resolution**
- **Values Clarification**

By enrolling in the COMPASS Program, they learn to:

- Build healthier relationships
- Take greater personal responsibility
- Put forth their personal best
- Develop characteristics that support success

The **NAVIGATORS** approach teaches participants to become co-facilitators of the COMPASS program. They:

- Enroll & experience the program
- Develop leadership characteristics
- Take on the responsibility of teaching to their peers

NAVIGATORS develops leaders & benefits other young adults and community.

RIPPLE EFFECT

Training participants to be co-facilitators is a cost effective way to reach a larger population.

“The COMPASS Program helped the members to improve & develop their skills on leadership and eased their way into the acceptance to the community. It emphasizes honesty, integrity, personal responsibility, and communication skills. I believe the program provided a good source of education to its participants and I fully stand behind its effectiveness.”

— Priscilla Diaz,
Leadership Program Director

To learn more about how you can sponsor a program, become a facilitator or enroll your child:
